

Los Angeles City Tour

Elite VIP Aerial Tours - When you visit Los Angeles this is the absolute ultimate way to experience the vast and amazing City of Angels. From the air you'll see everything there is to see starting with the major film and television studios and then on to Hollywood and Beverly Hills, then traversing to the famous beaches of Santa Monica and Malibu. In one breathtaking experience you'll get a taste of all Los Angeles has to offer so bring your camera as you'll have stunning photo opportunities that you can not get any other way as you pass over all our famous landmarks and feature destinations.

The Private Pilot License is for individuals who plan to fly for personal business and/or pleasure and not engage in work for compensation or hire. With your Private Pilot Certificate you are allowed to take family, friends and co-workers on board your aircraft or the aircraft you are renting while acting as Pilot in Command.

Welcome to ROTOR F/X LLC, where we as an unrelated family of pilots, instructors, technicians, service and support personnel thoroughly enjoy the privilege of flight every day.

We truly invite you to participate in the magic of flight and allow us to assist you with the services and products that we provide to enhance that experience. The amazing wealth of knowledge and expertise that is at your disposal is entirely due to the absolutely incredible people who enthusiastically make ROTOR F/X their second home every day.

At ROTOR F/X our stated goal is to nourish, promote and encourage all aviation aspirations in a professional and safe environment while retaining the enjoyment and camaraderie that makes the miracle of flight one of the truest and most fulfilling passions in life.

I have taken few helicopter lessons with them, and been renting airplanes as well. Exceptional cleanliness and maintenance is what stands Rotor F/X out. They also have GoPros wired properly that you can use to record your flight and take it with you. They allow the use of those with no 'extra' charge (some other places mark up the price for things that don't cost them extra money).

Had an awesome time! Initially bought this "sunset flight" for my husband and I as part of an anniversary present. The team is nice, and it's easy to locate. Upon heading to the plane,

I was asked if I wanted to fly it. Heck yeah! I've been very interested in getting my pilot license and already had one lesson.

In the plane, I started it, took off from the airfield and flew my hubby and I all over Los Angeles, the ocean, the beaches and hills of Malibu, then landed us safely back on the airfield. It was truly spectacular - and the sunsetting over the water was gorgeous."

Introductory Discovery Flight Lesson @ ROTOR F/X

Not sure if flight training or a career in aviation is for you? We invite you to come for an orientation and an introductory lesson where you will experience flight first hand. Your personal instructor will familiarize you with our aircraft and then take you on a flight where you will be given actual flight instruction. There is no better way to discover this amazing experience.

Once your flight is complete you will receive a certificate noting your first flight lesson and receive an official endorsement in your very own pilots log book to document the occasion. This is a real lesson and the time logged can be used towards obtaining your pilots license. After the lesson you can discuss and explore further training or career options with your instructor.

The discovery flight also makes a great gift for the aviation enthusiast in your life - or yourself!

Discovery Flight Lesson - includes aircraft instructor, official pilot log book and lesson completion certificate. We can issue a gift certificate upon request if this is for someone other than yourself.
